

PRESS RELEASE

PARTNERSHIP FOR THE CREATION OF A FAIR FOR LIFE & ORGANIC LEMON OIL IN SICILY

FROM THE FRUIT
TO
THE ESSENTIAL OIL

Since February 2023, J. GAZIGNAIRE - MUL Group, and Agrumaria Corleone have launched the first Organic and Fair For Life Lemon oil made in Sicily. This brand-new product is part of a collaboration between the two companies that share the same approach in terms of sustainability, traceability, and know-how.

The Organic and Fair For Life Lemon oil project was born in 2021 with a first diagnosis of the Lemon production in Sicily. The idea of the project was to offer a Lemon oil in direct link with the farmer, to reduce the number of intermediaries in the supply chain (such as cooperative or processor). After identifying two interested farmers, we built the project with specific assessment regarding:

- **ENVIRONMENT**

The Organic and Fair for Life Lemon oil comes from specific farm that have sustainable agricultural practices such as crop diversification, soil protection, water management systems and agroecology practices. In addition to the Organic certification, Fair for Life encourage farmers to work on waste, energy reduction and innovative practices.

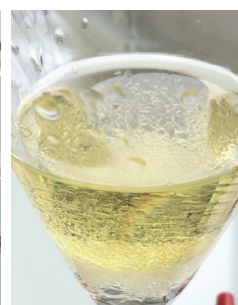

- **SOCIAL**

The farms integrated in the Fair for Life certification are part of a continuous improvement system to improve working conditions (for permanent and temporary workers) and wages (stable and fair remuneration system for the farmer).

- **ECONOMIC DEVELOPMENT**

The Fair For Life project includes a mechanism to support sustainable development action with the creation of a development fund dedicated to support farmers growth. The development fund is an additional amount given to the farmers to encourage new agricultural practices (equipment, tools, advisory, etc.) and to collaborate on specific issues as climate change.

The Organic and Fair For Life Lemon oil is now available on sale. Do not hesitate to contact us for more information.

Founded in 1865, J. GAZIGNAIRE is a family-owned company, part of MUL Group, for five generations located in the Pays de Grass. The company is specialized in the extraction and distillation of natural raw materials. With a strong commitment towards sustainability, J. Gazignaire offers a range of aromatic extracts that have a complete traceability from the plant to the extract with final use in the Aromatic, Cosmetic and Fragrance industries.
